

MOVEMBER®

**MORE
THAN
375,000**

Each year, more than 375,000
men are diagnosed with
prostate cancer in Europe.

EARLY DETECTION

**98% CHANCE OF SURVIVAL
BEYOND 5 YEARS**

LATE DETECTION

**26% CHANCE OF SURVIVAL
BEYOND 5 YEARS**

Early detection is key. To give yourself every chance against prostate cancer, talk to your doctor **AT 50, OR AT 45** if you're of African or Caribbean descent, or if you have a family history of the disease.
